

OWNER'S MANUAL

Version 1.0

Product description

The ZigBoat™ 3G/SMS USB dongle allows the Gateway to send SMS notifications to your device and/or to connect the gateway to the internet for receiving push notifications on ZigBoat App (SIM Card not included).

Precautions

- Keep the IMEI and Serial number codes in a safe place. The two codes are in the blister.

Getting started

- Detach the USB dongle back cover.
- Insert the SIM Card and close the cover.

IMPORTANT: Pin Code Request of the SIM card must be deactivated before use with the dongle

NOTE: Make sure the gateway is turned off, before inserting the USB dongle in the gateway

- Turn on the Gateway and wait a few minutes.

NOTE: Make sure the Gateway is turned on and configured correctly, for more details see the Gateway owner manual.

SMS notifications

- Open the ZigBoat™ App, select the Gateway in the devices menu, wait a few second, then select the menu button on the top right (fig. 1). Select the "SMS" tab (fig. 2)
- To receive the SMS notifications, you need to insert the phone number of your mobile device with the country code. You can also insert the name (optional), and choose the SMS's

language (available languages: English, Italian, French, German and Spanish) (fig. 3)

- You can remove the phone number by clicking on the "X"

Fig. 1

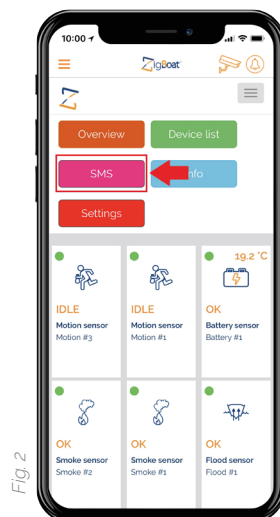

Fig. 2

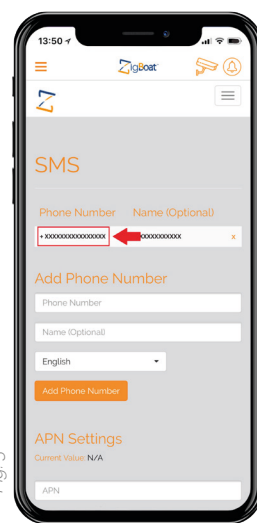

Fig. 3

NOTE: You can add a maximum of 5 phone numbers

- To enable SMS notifications for sensor type, press "enable" button. To disable the SMS notifications, click on "disable" button. (fig. 4)

Fig. 4

How to setup internet connection

You can use the ZigBoat™ 3G USB dongle to connect the gateway to the internet and receive push notifications on your ZigBoat™ App.

NOTE: the SIM card must be enabled for data connection service

- In the "SMS" tab, type the correct APN (fig. 5)

NOTE: The APN depends both on carrier and data plan. Check the correct APN with the provider of the SIM Card

- Click on "Set APN" and wait a few seconds. (fig. 5)

If needed, enter the username and password.
